“I like to find the truth in lies, because every lie hides the truth inside” - B.A. Brooks

For many years now, I have been comparing the situation that we find ourselves in to a movie called “The Matrix”. It may seem silly to you that I am using movie references to describe our current condition. The simple fact is that we are all living in false realities. Illusions perpetrated by think tanks, spin doctors, covert agencies such as [COINTELPRO](#), and the mass media industrial machine. Americans are finally starting to slowly awake from their slumber and for the first time standing up and speaking out. In other countries like Germany and France, the governments there actually fear the people, because the people in these countries take to the streets by the thousands at the first hint of treachery or tyranny. It is not in our nature though because as Americans we have been conditioned throughout our entire lives to trust authority and our political leadership. Just like our voting and political systems, our elected officials, our government, our military and all it’s agencies within. If you have not studied our American history in depth, I urge you to now at least read [quotes from our founding fathers](#) and get to know our [U.S. Constitution](#). This will give you a better understanding of who an American really is by knowing what our ancestors have thought, fought and died for generation after generation. Many Americans today seem to have never really known who we are and where we have come from as a country and as a people. Another good place to start is by taking several nights and watching many of the truth movement movies that are still available free on the internet. Movies like [“Freedom To Fascism”](#), [“September 11th revisited”](#), [“The Obama Deception”](#), [“Terrorstorm”](#), [“Endgame”](#), [“Martial Law 911”](#), [“Money, Banking and the Federal Reserve”](#), [“The Money Masters”](#) and so on.... Watching these movies will lead to viewing other media which will all result in a better understanding of what is really going on inside of America and the world. There are also many great alternative news sites like [“Raw Story”](#), [“Global Research”](#), [“Prison Planet/Infowars”](#) and [“CNS News”](#) which offer a view at many stories that you will never see on your nightly news channel. After you spend some time educating yourself by honestly looking at your new reality, I will ask you this - Do you still trust our government, military and political leadership? Do you believe our government has gotten extremely too big and that our military machine has in reality fallen out of our control? Read [“Project For The New American Century”](#), written by Dick Cheney, Donald Rumsfeld and Paul Wolfowitz. They wrote this report in 2000 and is the blueprint for everything that has happened within America over the past 9 years while also looking far into the future. Several years ago [Paul Craig Roberts](#) told me of what was coming and that nothing could be done to change or stop it. He also told me that it did not matter who was president or what anyone did, because plans had been set in place for years and years that would ultimately lead us to exactly where we find ourselves today. His advice to me was to enjoy every second of life we had left and to just have fun because a hell on earth was in our not to distant future. I believed his words but could not give up the fight because I truly believed the American public could or would stand up

and organize in order to take back our [government and military machines](#)..... I now find myself telling new patriots the exact same words that Mr. Roberts told me. I now see that Mr. Roberts was correct in his words to me and I now realize that unless more people start working together, all will be lost. Believe me when I say that where we find ourselves today is not due to just a series of unfortunate calamities that are not connected or intentionally set in place. These are plans that have been put in place and acted upon over the course of the last hundred years. Starting with our economy, let us look at three things that have brought us to our economic collapse. #1 - December 23rd of 1913 and the creation of [The Federal Reserve](#). If you believe the Federal Reserve is Federal, I got some bad news to tell you. The Federal Reserve is not Federal in any way, shape or form and they answer to no one. #2 - August 15th 1971 when Richard Nixon took us off of the [gold standard](#), which means that ever since that day our dollars are not backed by gold. They are nothing more than a piece of paper. #3 - Bill Clinton Deregulated The Banking Industry On November 12th 1999. This was called [Financial Services Modernization Act](#) and set in place the current financial crisis. In 2007 I could clearly see that we were already in a recession at that time and in March of 2008, I predicted that the U.S. economy would [collapse](#) between September and October as many others did that were spending a lot of time watching financial news, the markets, the [Baltic Dry Index](#) and so on..... It was unclear to us at that time what actions the Fed would take. Now we know. [Bubbles and Bailouts](#). Our leadership's answer to fixing our debt was to print and spend more money. The dollar is doomed and our economy is done. Put a fork in it. If you believe the mass news networks when they are now telling you that the recession is over, I am once again sad to tell you that this is far from the truth. [America is in deep trouble](#) and life as we know it will cease at [some point soon](#), and I fear it will be sooner than anyone knows or believes.

Now with that said, the powers that be are never going to allow you, me or the world to see this happen, and this is where a [false flag](#) event will be used to usher in a new age of our history using fear and death as a manipulating force among citizens of The USA and the world. In Project For The New American Century, it is written that another Pearl Harbor type event must happen in order to get the American public to go along with military forces dispatched in the middle east. Of course we all now know that the Pearl Harbor event became what we all know now as September 11th 2001, which I must include that ten years to the day prior to 9-11, Bush Sr. first spoke of [The New World Order](#). Now that we are on the flip side of 2009 we see a new possible horrific threat emerging in which I have also been warning of for years. Bio Engineered Weapons. Be aware that viruses can now be developed that are race specific. Many scientists have already come out and described this new H1N1 swine flu, a bio engineered lab created virus. There have been several convenient reports come out this year about missing bio entities from [Fort Detrick](#). These labs work with entities that include [ebola](#), anthrax, avian flu and include other killers as well. Generals in [China](#) have recently openly spoken of a bio or [nanobot attack](#) upon America that would kill every citizen but leave our infrastructure and resources intact. This is probably driven by their extreme over population issues and also to retaliate for many U.S. attacks on China using [H.A.A.R.P.](#). The CDC, WHO and the mass media have been acclimating the worlds populations to a major deadly flu outbreak this fall and into 2010. Whether it is a real threat, a [psyops](#), or

is a false flag is not clear yet. Many are warning that a virus will be released into the public that will kill millions and possibly billions. How would this be done? Most likely the viruses will be distributed through [chemtrails](#) or what the government also calls cloud seeding, geo-engineering and weather modification. Many others are saying that the flu scare is a total hoax in order to set up a world vaccine program that will not only generate billions of dollars for big pharmaceutical companies and everyone involved, but could potentially kill more people than the flu virus itself. One goal of the NWO is [global depopulation by 80%](#) using what I call “soft kill“ which is not as messy as war. In any case, this situation has allowed the U.S. government for the first time in our history to put troops on our own shores for military purposes. [NORTHCOM](#) is asking for another 400,000 troops on top of the 1st brigade which enlists some 20,000 troops already deployed within America. 2009 has been the summer of military, government and law enforcement drills which in reality has been a really huge effort which has allowed an atmosphere and environment building up for total control or a [martial law](#) scenario. [FEMA Camps](#) are being built and [H.R. 645](#) calls for no less than 6 to be operating on military installations and the National Guard is running ads for [internment specialists](#) as I write this article. Oh, I can not forget to mention that The CDC and FEMA have purchased [hundreds of thousands of plastic coffins](#). There has been a huge effort to label ordinary Americans as home grown terrorists by law enforcement and government agencies. We have all seen the [MIAC report](#), [VFC report](#), [DHS report](#) and the [FBI reports](#) which identify patriotic Americans as enemies of the State. It seems to me that there is a perfect storm brewing which could result in [blood being spilled on every street in America](#). The plans of these few who wish to bring on what many believe to be end days have been drastically slowed down through the efforts of countless heroic men and women who have put their lives on the line by standing up and warning others of what is to come. Only through organizing together can we stop these things from coming to pass. Host DVD patriot parties and invite your friends, family members and neighbors to watch movies that will easily make things clear to an unknowing person. Awaken the world one person at a time. Keep [stocking your food, water and medical supplies](#). Buy a gun and lots of ammo. Learn how to use it! Pray for the best, prepare for the worst! I urge all active duty police and military to join [Oath Keepers](#) today! I fear that Oath Keepers are now our only hope left.....

[The military machine has been put in place](#)

Soft Kill - The Coming American Genocide

August 16th 2009

[UAFF NEWS](#)

By: B.A. Brooks

The CDC and many doctors have been warning for years that it is not an issue of “if”, but “when” a major [H5N1 Avian Flu](#) outbreak will decimate humanity. A pandemic that would make the [1918 Spanish Flu](#) look small in comparison. Hundreds of thousands of [birds have been culled](#) over the past several years in order to stop just such outbreaks from presenting themselves. Today we find ourselves a few months into a major H1N1 Swine Flu global pandemic which according to WHO and The CDC has [killed 700 people](#) worldwide to date. What I am about to tell you is almost unbelievable so I added the link, but in The USA between 5% and 20% of Americans contract the flu each year, [killing up to 35,000 annually](#). I really had no idea that many people were dying each year from the regular old flu. Shocking. Did you know that the Spanish flu of 1918 killed some 50 million people? I only bring this up because this new flu is being compared to the Spanish flu in great lengths. It may only be a coincidence, but it just so happens that the 1918 Spanish Flu has been tracked down to [originating from a military base in central](#) Kansas called Fort Riley, where a [soldier came down with a fever](#) infecting over 100 others before the day's end. I believe that after reading this article you will believe as I do. This was by no means a coincidence. It is well documented in main stream news sources that our own government and military machine have been [secretly experimenting on our troops](#) and even private citizens, most without any knowledge of what was being done to them. The [Tuskegee Syphilis Experiments](#) are one good example of this and another would be [MK Ultra](#). There have been many reasons given when looking where HIV/AIDS originated and in 1987 The London Times broke the story announcing the ugly truth in their earth shattering report [Smallpox vaccine 'triggered Aids virus'](#). That's right, now you know that through the smallpox vaccine, the deadly aids virus was awakened. Or maybe you have never looked into [Factor 8](#). This is where Bayer Pharmaceuticals released HIV in there medicines. Recently the swine flu vaccine has been linked to a brain disorder called Guillain-Barre Syndrome (GBS), and in Germany the vaccine has been linked to cancer. Vaccines are and have always been very controversial leading right up to today when we are facing a mandatory [global mass vaccination](#) set to begin as soon as September/October 2009. Recently WHO recommended mandatory [vaccinations for almost 200 countries](#) and I know that many [parents are worried and concerned](#) about the safety in such a vaccine being shot into their children. It is well known there are so many different strains of flu viruses, that there are no guarantees the normal vaccines available now for the everyday normal flu will protect

you from getting sick. Plus vaccines are put through rigorous testing for sometimes years, but [Baxter](#) and others have magically prepared a vaccine in a matter of months for human trials? I do not think so. This is the same [Baxter Pharmaceuticals that recently released the avian bird flu virus](#) in medicine to 18 countries. The statistics linking [autism and other diseases to vaccines](#) are horrific and shocking, which tells me it is [more about money](#) than protecting our populations. So what will happen to you and your loved ones if you do refuse the flu vaccine? [Will you be treated like a criminal?](#) The answer is yes. You will be identified, tracked, treated and quarantined. The government is already sanctioning your local [schools as mass vaccination clinics](#) and it looks like the [children will be the first to get the shots](#). So what I ask is which do we fear more? The Flu or The Vaccine? Oxford researchers have already warned [not to give your children Tamiflu](#). Right now [eight cities are involved in swine flu vaccine trials](#) with about 2,800 people participating. In 1976 there was a flu scare just as we are experiencing today, but the [vaccine ended up killing more people than the actual flu virus](#). What is interesting is that Baxter applied for the swine flu vaccination patents in 2008, which was way before any breakouts were confirmed. It has also been confirmed that [CDC and FEMA have been purchasing hundreds of thousands of plastic coffins](#). If you want to see the hundreds of stacks of these coffins, just go to you tube and search [FEMA COFFINS](#). When you look at the big

picture, it seems that our government and military have been preparing for this event spanning some time now. Could this be excellent planning by our leadership or [could this be an actual plan](#) that is being played out in order to create a total police state using fear and the human condition brought on by spin doctors and the mass media industrial machine? Presidential candidate Chuck Baldwin recently asked publicly [why internment camps are being built](#), while others

are asking why [The National Guard is advertising for Internment Specialists](#). Many of you have heard reports about FEMA CAMPS and scoffed in disbelief, and those of you who fall into this category should look at [H.R. 645](#) which calls for no fewer than six internment camps to be built within U.S. military installations. The 1st brigade already have 20,000 US troops on the ground in America and the [pentagon is now asking for another 400,000 troops](#) to be deployed on American soil. We know the military will be assisting with the mass vaccinations and will be easily deployed if civil unrest becomes an issue within our borders. [The National Guard are training now for riots](#) and our military/law enforcement have put everything in place to lock down America if [martial law is ordered](#). The Department of Defense is [pushing for domestic control](#) while our [Governors are opposing The DOD's Emergency powers](#). There has been a huge effort to label ordinary Americans as home grown terrorists by law enforcement/[Fusion Centers](#) and government agencies. We have all seen the [MIAC report](#), [VFC report](#), [DHS report](#)

and the [FBI reports](#) which identify patriotic Americans as enemies of the State. The questions keep mounting as we must ask which is the greater evil? The Swine Flu? The Vaccine? Or the new American police state orchestrated by our government, law enforcement and military? The message being put out by the mass media is that this flu will lie dormant until this fall, when it could kill millions of the global populations. Whether the swine flu is real or another bio entity is released upon us, it is very clear that we are all being [acclimated to believe that there is a real danger](#) this fall starting around October 2009. Could this all just be a [false flag event](#) which will allow our leadership to conceal the total economic collapse that is destined to happen in our once great country while also ushering in a [new world order](#) in which every world leader has spoken of over the last decade? The real question is do you trust your government and your elected officials? Well, do you? It seems that U.S. leadership in all areas of government, law enforcement and military are pitting the people against the empire which could result in the Second American Revolution. Getting us all to kill each other would complete the agenda set forth by the efforts of many inside the illuminati and new world order. Take the time to research [Agenda 21](#) and [Codex Alimentarius](#) to start your journey, after following the links that I have included in this article. Organizing and preparing is the key to surviving our dark future. Stock up on [food, medicine, water, and a water purifying system](#) asap. Pray for the best while preparing for the worst.

TRUTH MOVEMENT HIJACKED

[UAFF NEWS](#)

By: B.A. Brooks

08/17/2009

When I first got active in the patriot movement, one of my goals was to unite all militia units within The United States under some kind of allegiance with a main purpose of communication and unity. What I learned was that most militias operating in America are using the patriot movement to further their own personal agendas which range from

many extreme and radical theologies. Some are pure racists while others are religious radicals, and then you have the radical religious racists. There are only a handful of actual militias operating today and I have found the rest to be just a bunch of guys with guns who wear camouflage. I would also be inclined to say that 99% of American militias have been infiltrated by FBI agents and or informants, if not actually being started and run by the FBI. I have also learned that many individuals within the patriot movement are really informants/narcs and this is why I have now isolated myself from most people and organizations. It is not that hard to point out these individuals if you just sit back and watch what people are doing. Who is always starting trouble within the movement? Who is always pointing fingers and blame at

others within the movement when in reality they should be focusing on the true political problems we are all facing? Who is always trying to create infighting within the movement? Who among you is trying to incite violence? When you start looking and listening, you will see clearly who these people are. I have found out in life that the person that is constantly telling you they are your best friend and will always have your back, is the first person to put a knife in your back. I do not talk about others in the movement but will tell you that a few of these individuals are highly revered by many and when they are exposed, most will be totally caught off guard and shocked. Many of you reading this article right now have unknowingly befriended FBI/CIA/ATF Agents, undercover law enforcement, informants and narcs. This is the main reason why I have disassociated myself with The American Resistance Movement, while also isolating myself from most others within the so called patriot or truth movements. Many of these people are the real deal but with that said, most have been seriously

infiltrated or are actual federal agents. Learning the truth about all of these things has been very hard for me to accept because I have been such a huge supporter of A.R.M. and other organizations over the past several years that I must now walk away from. It was a good idea but it is over now and I urge you all to move in new directions. You can only really trust yourself, close friends and family in these Orwellian times. I have always said

that knowledge is power and that you should share your power. What do you think I meant when I said this? I meant to learn about the truth and share what you learn. Not to

share your personal information with others which they can use against you in the future. When it comes to your past and personal background, it is always best to keep these things private, especially if you have had any kind of felony arrest in your past. When you share knowledge about your personal background, you are giving away your power and making yourself vulnerable and a possible target of law enforcement. Keep your private information private. Never reveal too much about yourself or your family and friends. Loose lips sink ships! Remember that you never really know who you are talking to on the internet. Even if you have progressed into

phone conversations and even meet-ups, you still never know what is motivating another. Some informants do it for the added excitement that it gives to their lives, while others do it because they have been caught up in a felony arrest and have chosen to turn in others in order to save their own skin. I have removed the forums and chat rooms from within my website because I will not stand by while some people with a low mentality end up representing everyone. Some call these people shills or trolls, and all you have to do is read the comments at most patriot sites to get a good idea of this mean, childish and hateful speech. Myself, Alex Jones and a few others within the movement have been the focus of much talk over the past several months on message boards and comment forums, in an effort to discredit our work. Mostly verbal attacks using fabricated lies and cointelpro tactics in a clear attempt to confuse issues and destroy reputations. My own mission is the same as it always has been, and that is to expose the truth within a world of lies. To stop the new world order and their agendas dead in their tracks and I will continue to report what I find, continue to write articles while working on my newest full length movie. I have added a few links under this article that will demonstrate a little of what I speak of today. Watch your backs people!

My Letter To President Obama

by: B.A. Brooks
09/14/09

Dear Mr. President,

I will make this as brief as possible.....

My name is B.A. Brooks and I am the founder of The United American Freedom Foundation. I have dedicated the past many years to uncovering corruption within our government, military, law enforcement, banking system and so on..... Many spin doctors would call me a conspiracy theorist or maybe a nut job in an attempt to discredit me and my work, but with that said, all of the news stories and research that I have uncovered proves me right in most instances. Everything I have uncovered has been through actual declassified material and main stream news stories. I embellish nothing. I did not vote for you although my entire family did. I am proud to say I voted for Chuck Baldwin. I was on the Ron Paul campaign in Florida and Missouri until Dr. Paul quit the race for presidency. My reason for writing you today is an attempt to open up discussions on many of the issues that are confronting Americans today and a chance for you and your staff to debunk any story on my site... When the many fusion center reports were leaked and the MIAC report came out, the Governor of Missouri had one of his top cops call me and we talked about the report a bit and other things such as militia's in America and what I have concluded... What I concluded is that almost every militia in America is fueled by their own agendas which range from racism to radical religious sects. But nothing was settled with our conversation and I feel more like I was used as a tool in order to calm down the masses. I am open minded and accessible to you and your people, and would love the chance to disprove any of the stories within my website. The problem I have is that most of the stories within my site are most likely real and true even though I would like nothing more than for them to be proven wrong. The proof is all in black and white and documented. Many Americans are now waking up to the fact that our economy is collapsing and our government has not and is not working for our best interest. Our congress is owned by corporate America and the lobbyists got to go. The Federal Reserve has got to go. The IRS has got to go. The two party system has got to go... The CIA and FBI need to be disbanded or reorganized... The dollar must be returned to the gold standard. Executive orders implemented must be revoked. We must shrink the military machine and stop all of these covert black op programs. Too many people are locked into the prison and justice system which is not always just. These of course are not demands but only observations that I have made.... One world governance and a new world order will never be implemented. Millions are ready to fight and I fear blood will fill the streets throughout America. I do not promote violence. I do promote self defense though. Our military industrial complex has grown to big to control and there are way to many covert agencies operating throughout the world. Have you read Project For "The New American Century" PDF? Cheney and his cronies have done some major damage, but I realize that the rabbit holes go very deep and far back into our last hundred years of history. Have you read "Anthrax War"? I listen to your speeches and realize that you are so very intelligent and understand our history as a country in great detail, which leads me to the conclusion that you have no excuses of ignorance to what has happened in our past, what is

happening now and what could come to pass. Law enforcement and the military machine have been very busy creating an “us and them” environment over the past several years when in reality it is all just us. We The People! So I am considered a right wing extremist because I believe there is a new world order being created? Well every world leader has spoken of this for over ten years now starting with Bush Sr. on 9/11/1991 ten years to the day of September 11th. Now it is something of a catch phrase with all world leadership. A New World Order? Not on my watch sir! I could write for days in this letter of all the corruption I see and have uncovered, but will let you examine my work for yourself and come to your own conclusions. All that I have uncovered in which our government is involved in is overwhelming, what scares me is all of the programs and situations that are still unknown. I do not fear you or the government though, and this is why I have never hidden behind false identities and such mainly because I am doing nothing wrong by our own laws. I do not fear death but do not seek it either (wink/smile). I am a musician by trade and have toured coast to coast entertaining Americans most of my adult life and in 2006 I married a German citizen. After spending 8 months in Germany last year, I was able to see more doctors than I have in my entire life here in the States. It was quite refreshing and once I weeded through a few doctors and found one I liked, it was an awesome experience. Socialized medicine would probably never work here and it because of only one reason. Greed! For the love of money. Insurance agencies and Doctors. On and on we go and where we stop only a few really know. I have a good stat counter which shows me that most government agencies have visited my website on a regular basis. From DHS to Naval intelligence, I see them all trolling on my site. I am a bit shocked that I have never received a visit from the CIA or FBI, but I figure they realize that I am of no threat to anyone and only promote peaceful resistance. When I first got involved with the so called patriot movement, I was a bit militant but it was because of my shock and horror of what was presenting itself to me. I quickly realized though that was not my path and change could only come through the sharing of knowledge and by making true change by implementing people who are “aware & awake” in local political positions. I have distanced myself from all people within the patriot movement and most all organizations. Many have been infiltrated by the FBI and CIA who are causing serious problems instead of offering solutions. Business as usual. Many innocent people are going to be imprisoned or worst because of this covert involvement. I will not be part of this and can clearly see what is really going on within our intelligence community. My only concern is informing others of the knowledge I have found. Even though you will probably never see this email, and although I feel by writing you today that I have walked into the mouth of the lion, I must reach out to you in an attempt to bring light and truth to the many issues that have now caused millions in America to now fear our own government, military and law enforcement. I see how bad things are within our country and the world. I feel things are going to spiral downwards very soon. Maybe by working together we can stop the fear and grow as a people united instead of a people divided. Total disclosure is needed. Can I ask you what is up with all of the CZARS? This is America my friend! We do not have CZARS. Well, we do now. What in the hell are you thinking? In religious issues I tend to lean in the direction of the thoughts of Richard Dawkins. So the religious card is not played well with me. Although I will stand up for your right to believe in whatever you may so desire. This is called religious freedom. Anyhoo, I will end this now in the hopes

that one of your minion contact me so we can clear up the thousands of issues reported on my news website. Do you have any idea how much treachery is going on in every aspect of our past and present? It is very alarming and too much for most to handle. If not me, please reach out to someone and clear these many issues up so we can all relax a bit. No gun control - No Forced Vaccinations - No martial law - No Police State - DARPA needs regulated now - Everything has to be reworked soon or all will be lost. It is not you and us. It is just us. We are all American brothers and sisters....Stop the madness now.... Fix our broken country! YOU CAN DO IT SIR! Bring us the true change you have promised! If you do not act soon, I fear that The Oath Keepers will be our only hope. I urge you to support them also.....

Prove these stories wrong so I can go back to my regular life and let you guys handle the business of our country. I would love nothing more than to return to my ordinary life and be able to trust my government and our leadership to be doing the right things. I fear that it is too late for that now. Please prove me wrong. I have so much more to say , but will leave with this brief letter.

Much respect,

B.A. Brooks - bertbrooks@usa.com

WHITE HOUSE REPLY:

Dear Friend:

Thank you for writing to me. I appreciate hearing from you and value your input.

Each day, I am moved by the messages I receive from people across the country. Far too many Americans are struggling--falling behind on mortgage payments, coping with illness, or losing a job without warning. My Administration is working to address the serious challenges our Nation faces. I am committed to taking immediate steps that generate job creation and economic recovery, and I am determined to make investments that lay a new foundation for real and lasting progress.

To build this new foundation, we need health care reform--this year--that reduces costs, protects health care choices, and assures quality, affordable care for all Americans. I encourage you to visit www.HealthReform.gov to learn more about my commitment to enacting comprehensive health care reform in 2009.

I am also dedicated to building a clean energy economy that creates millions of jobs, helps us achieve energy independence, and reduces pollution as we tackle the effects of global warming. Please visit www.Recovery.gov to read about the more than \$60 billion in clean energy investments my Administration has made to

jump-start our economy and build the jobs of tomorrow.

To prepare our children to thrive in the global economy, we must guarantee every child a complete and competitive education. For information about my education reform agenda, please join me online at: www.whitehouse.gov/agenda/education.

At the same time, we have an obligation to rein in our budget deficit by cutting wasteful spending and ineffective programs. We can do all this, and change the way business is done in Washington, by building the most open, transparent, and accountable government in our history.

While we repair our communities, we must also recognize the important contributions of our service men and women in Afghanistan, Iraq, and other nations. Our military and their families have borne an enormous burden for their fellow citizens, serving with honor and succeeding beyond any expectation. For those who have been injured or lost their lives in pursuit of our freedom, we owe them our undying gratitude. I am committed to assisting our servicemembers, veterans, and their families and honoring our debts to them.

The only way to solve the problems of our time is to involve all Americans in shaping the policies that affect our lives. I hope you continue to explore www.WhiteHouse.gov, which is regularly updated and more interactive than ever before.

Thank you again for writing.

Destroying The U.S. Surveillance Network

September 20th 2009

[UAFF NEWS](#)

By: B.A. Brooks

I have heard that people are destroying all of the new surveillance cameras on highways and stoplights with high power rifles. Probably using a scope from long distances. I'm now assuming that these are people who do not want to be monitored and or spied on. I find this very interesting, because it is happening all across The U.S.! Is this the true beginnings of leaderless resistance?

If you have not noticed what has been being put in place over the last few months across America, the next time you go for a drive take a closer look. Surveillance cameras are being systematically placed on stop lights, buildings and highways from coast to coast, many which use a solar panel for power. Most of the solar powered units are on a pole that rises up about 25 feet in the air and can see in all directions. The all seeing eye is looking at you. What are these cameras used for and who is looking at the videos? The answers might just surprise you! I do not believe that most people have any idea what busy little beavers our security agencies and military have really been. Modeling the UK surveillance grid, our own government are now installing camera networks city by city. If you have not seen these yet in your local area, you will soon. These camera networks are all being tied together using many methods including a huge reliance on

military and some civilian satellites orbiting the earth. Most cities think these systems are just for them to use, when in reality it is to be used by federal and national agencies for a total police state control grid. You, what you do and where you go will all now be monitored. Your license plate will be scanned constantly for outstanding warrants or red flags connected to your name while also tracking your movements day and night. It seems that many Americans are not going to simply comply and are using the cameras for target practice. Using high powered rifles and scopes, people all across America are taking out these systems one at a time. (Bam/Pow/Pop)... This is an interesting development because it came from no order or command that I am aware of. It is just happening on its own in the true nature of leaderless resistance. What is The NSA and DHS going to do now?

Install more cameras to watch the original cameras? I hear that people are even taking the solar panels off of the highway systems after the cameras are disabled. It is widely known that any basic red laser from the dollar store will temporarily disable a security camera and that a green laser will permanently destroy a video camera, but shooting them with guns is a new one to me. People are slowly waking up and they are not liking what they see. Plain and simple. Once Americans started reading the constitution and also seeing what our founding fathers left for us to learn from in books and quotes, there is no denying right from wrong, good from evil or fascism served under any guise even when using fear as a motive to etch away the liberties of our society. I do not condone such acts as shooting at government objects, but at the same time find myself very interested that it is happening all the same. It is not that I am happy people are risking jail time by destroying government property, but it is the act of defiance that intrigues me. I always wondered if or when people would have the stomach or the nerve to stand up and do something, and now I realize that we do. We all do! Who are the ones that are doing all the shooting? That is the big question. Could it be Teenagers? Militia Members? Right wing extremists? Al-Qaeda terror cells? Maybe it is some new group of terrorists that just really hate cameras..... hmmmmmmmm. I will look further into that one..... (wink/smile).. I think it is probably just regular, everyday normal citizens that have had enough and are drawing their own individual lines in the sand by saying "No More". Maybe it is your next door neighbor, or your co-worker.... Maybe it is your brother or sister.... Your father..... Maybe even your Grandfather..... Mom? hmmmmmm I do not know that answer. No one knows and that is the big mystery that many law enforcement officers are now scratching their heads and asking: "Who is shooting up our new total police state camera grid and why would anyone do such a terrible thing"? Maybe it is because evil will never prevail.....

**The military machine has been put in place
You have been labeled a right wing extremist
Death is knocking at your front door
Are you home?**

09/30/09 11am: The whole web is blowing up with stories about a new mercenary group like Blackwater invading U.S. cities. Websites like World Net Daily, Raw Story, Blacklisted News, Prison Planet, Info Wars and even CBS, AP and Google News have stories running right now on The APF. Upon my first glances at the APF website, many things raised red flags in my eyes. Being an investigative journalist/webmaster and working constantly with internet code gives me more insight than most and I had a feeling immediately that this was not real. After looking into The APF and careful examination of the source code within the APF website and the channel 8 news website, I really have started to believe that the APF is just a very elaborate hoax. The APF website is hosted through godaddy.com and I am looking into the ownership right now. It might take me a few days to investigate this developing story, but will post my findings here for all to see.

APF founder who calls himself "Captain Michael Hilton"

Aliases include Midrag Ilia Dokovitch, Midrag Ilia Dokovich and Michael Miodrag. Hilton, who speaks heavily accented English, has told reporters that he is a naturalized U.S. citizen originally from Montenegro, a country bordering Serbia, and once part of the former Republic of Yugoslavia.

BAM / BOOM / DEBUNKED

Not that fast.....

October 1st 2009: But wait.....the story continues.

I noticed that this morning that the APF contact page had been pulled down. I am guessing because of my exposing them as a total fraud. I will keep checking back to see if the page has been manipulated. WTH? It looks like APF was established legally in March of 2009 and could be real. more to come....

What is going on here people? Why the hell would their California address point to a medical marijuana depository? This is getting more insane by the minute. As more info unfolds I will update you here. I am still trying to figure this whole thing out..... The more answers I get, raises even more questions I need to ask..... The prison is real for sure and on tribal land which does not observe all federal laws, but what about APF? It is looking more and more like they are a real entity. This morning I wrote to the Governor Of Montana and also the local Sherriff's department on this matter. I will post their responses here asap.

10/01/09 1:30pm - No responses as of yet, but it looks like there is more to this than we know yet.

Could APF be real? Looks like it just might be.....

Hardin Two Rivers Authority Press Release

September 8, 2009

Hardin Detention Center News

Two Rivers Authority (TRA) from Hardin has signed a TEN YEAR agreement with "The American Police Force" group to operate the Hardin Detention Center owned by the TRA. Their website is www.americanpolicegroup.com.

The first group of inmates, with an anticipated start date by January, 2010, may be low to medium security inmates. This is exactly the type of prisoners this facility was planned and built for.

The contract with the American Police Group obligates them to begin making payments to the TRA beginning in February, 2010 for a period of ten years.

We give a heartwarming welcome to the American Police Group and encourage and believe the Hardin community will enthusiastically welcome and support the newest business to our area.

Thank You
TRA Board and Director

How deep do the rabbit holes go? Where they stop nobody knows! I am very sad to report that APF looks like it is a real company with possible ties to other mercenary groups. Why does their address in California lead to a medical marijuana depository? I have no idea... YET! I will look more into this one. After reporting all of the facts that I have found so far, It now appears like APF is real, which is very disturbing. We now know who our enemy is!

I will keep working, and posting everything I find. This is the most insane story I have worked on to date! B.A. Brooks 10/01/09

POSTED ON THE TRA DETENTION CENTER WEBSITE: The stories by Steve Quayle and Alex Jones in regards to Hardin, TRA and the Detention Center are NOT true. We have no idea where they got this information, but there is absolutely no validity to these articles. There is no fence or gate being built around Hardin. People are not being put in jail for refusing the swine flu shot. And our city is not being taken over by a private police agency.
